Flying Geese

Ruler

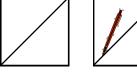

Your Bloc Loc[™] Flying Geese Ruler includes the seam allowance. The cutting sizes for both squares and rectangles that make up the flying geese units are oversized by 1/4" for perfect results after trimming. *Use the chart to determine the cutting sizes for your flying geese unit.*

Each flying geese unit requires 2 squares for the sky and 1 rectangle for the goose.

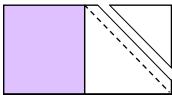

goose

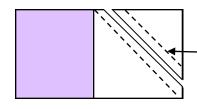

1. Draw a diagonal line on the wrong side of each square.

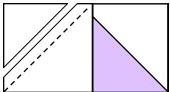

2. Place a square onto one end of the goose rectangle with right sides together, lining up all cut edges. Stitch directly on the diagonal line.

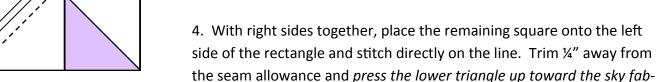

3. Trim 1/4" away from the seam and press the lower triangle up toward the sky fabric.

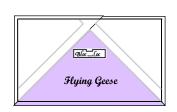

Tip: To prevent wasting the little triangles that are trimmed off, simply stitch a seam 1/2" away from the first line of stitching for instant half-square triangles.

ric.

Again, you can harvest the left side half-square triangles by stitching 1/2" away from the first line of stitching and cut 1/4" in between.

5. Place the Bloc Loc™ Flying Geese Ruler on top of the flying geese unit so that the grooves underneath the ruler fit over the seam allowances.

Directions for squaring up a Square in a Square unit using Bloc Loc Flying Geese Rulers*

Your Bloc Loc Flying Geese Ruler will also square up a Diamond in a Square unit. Use the chart below to cut and piece your squares and triangles to make oversized diamond in a square units and then use your Bloc Loc™ Flying Geese Ruler to accurately and quickly trim around each side.
