Abbreviations Used: wof — Width of Fabric, meaning the entire width from selvage to selvage edge

Round 1, First Yellow strip

Place center square RST with first yellow strip and the center square is on top with 1/8" extra at the top. Stitch 1/4" seam. Cut the square and yellow strip from the rest of the strip, leaving 1/8" extra at the bottom of the square. Finger press the seam toward the yellow strip. Trim the width of the strip and square off both ends using the 1" side of the Log Cabin ruler.

Round 1, Second Yellow strip

Place the second yellow strip face up and the log cabin block is upside down, making the two pieces RST. Also, the last strip you add is always positioned at the top. Make sure to leave an extra 1/8" at the top before stitching the 1/4" seam.

Cut the block from the strip at the bottom, leaving an extra 1/8" extra.

Finger press the seam toward the second yellow fabric and square off both ends using the 1" side of the log cabin ruler.

The process of adding all strips are all the same. What changes is the color of the strip. See the rounds below for color placement.

- Round 1: A. First color strip to center square
 B. Second color strip
 C. First background strip
 D. Second background strip

- Round 2: E. Color strip
 F. Color strip
 G. Background strip
 H. Background strip

- Round 3: I. Color strip
 J. Color strip
 K. Background strip
 L. Background strip

- Round 4: M. Color strip
 N. Color strip

Arrange blocks so that the color cascades as shown.

In between the blocks, add the sashing. Press the seams toward the sashing. Where yellow meets yellow, add a 1 1/2" x 9 1/2" yellow sashing strip. Where background meets background, add a background strip, and so on. In between the sashing strips, add the cornerstones.

Sew the blocks and sashing together into rows. Join the sashing and cornerstones into rows, and press the seams toward the cornerstones. Join the rows together.
